Kia ora!!! Thank you all for coming to our Art Show, the comments we received were brilliant and fantastic.

All the children have worked very hard to produce such outstanding art works and what a change it made to our School Environment.

Thank you as well for voting for the best PB4L Poster.

Room 3 wrote reasons why we need to wear sunhats this term. Here is some of their writing:

I must wear a hat because I will get sunburnt, it will be sore. It will make your skin sore and it will be sore. By Maia

I need to wear a hat because I might get sunburnt and it is too sunny outside. I will get hot. By Teresa

I have to wear a hat because I will get sunburnt and burn my head on the sun. By Marama

I must need a hat because we will get red sunburn and silver lines and outside it is getting hotter and hotter and hotter. By Tobias

A massive **THANK YOU** to all those that sponsored and supported their child/ren for the school fun run. With the money raised, we were able to purchase a set of "Wet Day" board games and some wireless speakers for each of our classes to enjoy.

We are totally blessed to have such a giving community and the kids are so appreciative of their new games – thanks again!

Kowhai Team Snippet:
Rooms 17-18-19-20)

Kowhai team teachers have brought some games for students to play on wet lunch times using the money that was raised through the Fun Run. Some of these games are: connect four, draughts, chess, guess who, classic monopoly, junior monopoly, yahtzee, path words, articulate, scrabble, Boggle and trivial pursuit. We hope that children will get a chance to enjoy these during their time in the Kowhai Team.

This term, Room 11 has been learning about Magnets and Magnetism.

Here are some interesting facts about Magnetism:

Magnets create magnetic fields
All magnets have a North and South pole.

The earth is a giant magnet.
A magnetic field will make the path of any particle, curve.

Many atoms, if put into a magnetic field, will align with the magnetic field or against it. Electricity and Magnetism are very inter-related, (to relate or connect to one another.) Earth, Saturn, Jupiter, and Neptune are the only planets in our solar system with magnetic fields.
