Tēnā koutou, Malo e lelei, Talofa lava, Bula vinaka, Fakaalofa lahi atu, Kia orana, Namaste, Kumusta, Nī hāo, Xin Chao, Guten Tag, Aayubowan, **Здравствуйте!** and Hello!

Namaste! It is Hindi Language Week and just one week until the Bailey Road School event - **Shake It Up**. We have already sold out our performance on Tuesday night and there are only a handful of tickets remaining for the Wednesday night performance. Parking will be available on the street and in the lower school car park (staff parking on the night). The gates will be closed for car parking (on the top court) but all pedestrian gates will be open until after the show. Some drinks and treats will be available for purchase on the night so bring along some coins and support the Rimu Team Camp!

Your child should now have brought home a notice informing you of what they are required to wear/bring for their costume, what time they will need to be at school each night of the performance and which classroom they will be in while they wait for their time on the stage. Every child has seen the other groups perform during rehearsals.

Karaka - Rooms 7, 8, 9, 20, 21

Room 8 have been BUZZZZZZING this term as we have explored bees at Bailey Road School. After discovering that we have a shortage of bees, we developed some hunches to explain why this might be. We came up with 3 reasons: kids are killing bees at school, we don't have enough flowers for the bees, and that kids might be picking the flowers that we do have. From there, we set off to try and solve these problems. We have created our own play to persuade children not to kill bees, we are going to be planting more flowers around the school and we are making signs for the gardens that we have to make sure the flowers don't get picked. It has been the most exciting term of CPW ever! We welcome all visitors to come and ask Room 8 students about the incredible work of bees!

Walking Benefits

Travelwise School

Cardiovascular health

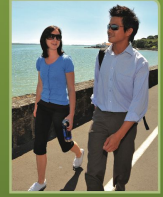

Your heart rate and circulation will be increased through a more efficient intake of oxygen.

Muscular strength

Muscles in many groups will be strengthened.

Healthy bones

Walk or you're chalk. A little regular activity will help prevent osteoporosis which causes brittle bones, especially in females.

Walking gets the feet moving, the blood moving, the mind moving.
